ABOUT

I am currently pursuing BTech at Chameli Devi Group of Institutions. I have participated in several hackathons and successfully volunteer a national-level hackathon. My passion for technology drives me to take on challenges and contribute to the community.

PROJECTS

WANDERWISE

Tech Used: HTML,CSS,JAVASCRIPT

- Developed a user-friendly web application using HTML ,Custom CSS and JAVASCRIPT.
- Designed a clean and responsive interface for optimal usability across devices.
- WanderWise, a web-based Travel and Tour Website.
- The platform allows users to find the best tour guide and plan every thing before going .
- Interactive UI design and easy understandable .
- Enhancing the user experience of making a tour easy and reliable.

SORTING VISUALIZER

Tech Used: Python,JavaScript,HTML and CSS

- Interactive visualization of multiple sorting algorithms.
- Adjustable array sizes and random number generation for diverse test cases.
- Real-time updates to show each step of the sorting process.
- Comparison of sorting algorithm performance through visual metrics.
- Designed and implemented a visually striking and intuitive interface, ensuring seamless navigation and highlighting key accomplishments effectively.
- Incorporated interactive elements and multimedia content to engage visitors and provide a compelling user experience.

OTHER TECH EXPERIENCE

- Contributed to the successful execution of a nationwide hackathon "Hackwave" by assisting with logistics, participant coordination, and on-site support for over 250 participants.
- Google Developer Group (GDG) –Played a key role in organizing and managing events, including planning, outreach, and participant coordination. Helped foster a community of developers by facilitating workshops, talks, and networking opportunities, building skills in leadership, event logistics, and community engagement

SKILLS

- Languages: HTML, CSS, JavaScript, Python.
- Frontend Technologies: ReactJS, Nextjs, Styled-components, UI Libraries
- AI: Large Language Models (LLMs), Image Generation Models, GitHub Copilot
- Dev Tools: Git/GitHub, Vercel, VS Code, GitHub Pages, Bun
- Cloud: AWS
- Coursework: Database Management, Operating Systems, Web & Networking Concepts, Machine Learning, Automata Theory
- Areas of Interest: Frontend Engineering, UI Development, Cloud Computing, AI/ML Applications
- Libraries and modules : Pandas ,NumPy,Matplotlib,Seaborn,etc

EDUCATION

CHAMELI DEVI GROUP OF INSTITUTIONS, INDORE
Bachelor of Technology (B.Tech) in Artificial Intelligence and
Data Science (AIDS)

SHRI ANAND H.S SCHOOL, INDORE
12th Boards | 05/2022

SHRI ANAND H.S SCHOOL, INDORE
10th Borads | 05/2019
